

October 11, 2019

Dear Retail Distributor:

At FoodScience Corporation (“FoodScience”), we are committed to you and your customers—the retail distributors and retail resellers that have helped our company become a leader in the human and animal health industry. To protect our brands and the integrity of our authorized distribution channels, FoodScience is announcing and implementing an Authorized Reseller Program for its VetriScience Laboratories and PetNaturals of Vermont products, effective November 1, 2019.

Your obligations under our new Authorized Reseller Program are outlined in the attached **FoodScience Corporation Authorized Retail Distributor Policy**. Among other benefits, our Authorized Reseller Program will ensure that all sellers of VetriScience Laboratories and PetNaturals of Vermont products understand and take the steps necessary to ensure product quality and provide the excellent customer service that is integral to the reputation of our brands. In addition, our Authorized Reseller Program will assist us in identifying and taking action against unauthorized sellers that are harming you, your customers, and consumers through the sale of damaged and diverted products. The key features are noted below:

- **Where and To Whom You May Sell VetriScience Laboratories and PetNaturals Products:** Pursuant to the Authorized Retail Distributor Policy, you are only permitted to sell VetriScience Laboratories and PetNaturals of Vermont products to customers who are classified as “Authorized Retail Resellers.” To become and remain an Authorized Retail Reseller, your reseller customers will be required to abide by the attached **FoodScience Corporation Authorized Retail Reseller Policy**. **You are prohibited from selling VetriScience Laboratories and PetNaturals products to end users—the ultimate users of the products.** In addition, you may not market, sell, or ship the VetriScience Laboratories and PetNaturals products outside of the United States without our prior written consent.
- **Limitations on Online Sales:** **You are also prohibited from selling VetriScience Laboratories and PetNaturals of Vermont products on any publicly accessible website or other online platform (including but not limited to Amazon) without FoodScience’s prior written consent. This provision will be strictly enforced.** You may use an online order portal to facilitate orders from Authorized Retail Resellers customers, so long as that portal requires Authorized Retail Resellers to obtain an account and log-in to view product listings and pricing information.
- **Ensuring Product Care and Customer Service:** To ensure that the end users who purchase our products have the best experience possible, the Authorized Retail Distributor Policy provides certain steps that you must take to maintain the quality of our products. The Authorized Retail Distributor Policy also outlines our expectations for the service you must provide to your Authorized Reseller customers.

The Authorized Retail Distributor Policy requires that you forward the Authorized Retail Reseller Policy and any other materials requested by FoodScience to your reseller customers. For your convenience, we have attached an Authorized Retail Reseller Packet, which contains (1) the Authorized Retail Reseller Policy and (2) a letter to your reseller customers describing the Authorized Retail Reseller Policy and the purposes of our Authorized Reseller Program. *Please forward a copy of the attached Authorized Retail Reseller Packet to each of your reseller customers as soon as possible, and thank you in advance for your cooperation, assistance, and continued support of the FoodScience brands.*

Please direct any questions about the Authorized Reseller Program, or the attached documents, to sstamand@foodsciencecorp.com.

Sincerely,

FoodScience Corporation

FOODSCIENCE CORPORATION
AUTHORIZED RETAIL DISTRIBUTOR POLICY
Effective Date: November 1, 2019

This FoodScience Corporation Authorized Retail Distributor Policy (“Retail Distributor Policy”) is issued by FoodScience Corporation (“FoodScience”) and applies to Retail Distributors of VetriScience Laboratories and PetNaturals of Vermont products (“Product(s)”) in the United States of America. This Retail Distributor Policy supplements any then-current wholesaler or distribution agreement between you and FoodScience. By purchasing Products from FoodScience for distribution to Authorized Retail Resellers (as hereinafter defined), you (“Retail Distributor”, “you”, or “your”) agree to adhere to the following terms and conditions. Until such status is otherwise revoked by FoodScience in FoodScience’s sole and absolute discretion, Retail Distributor shall be considered an “Authorized Retail Distributor.” FoodScience may review Retail Distributor’s activities for compliance with this Retail Distributor Policy, and Retail Distributor agrees to cooperate with any such investigation, including, but not limited to, permitting inspection of Retail Distributor’s facilities and records related to the sale of the Products.

1. Authorized Customers. Retail Distributor is only authorized to sell Products purchased from FoodScience to Authorized Retail Resellers.

(a) An “Authorized Retail Reseller” is an individual or business entity that:

- (i) purchases Products from an Authorized Retail Distributor and resells the Products as part of a commercial enterprise;
- (ii) has received and agrees to adhere to the FoodScience Corporation Authorized Retail Reseller Policy; and
- (iii) has not had its Authorized Retail Reseller status revoked by FoodScience.

(b) Retail Distributor shall not sell Products to End Users without FoodScience’s prior written consent. An “End User” is any purchaser of the Products who is the ultimate user of the Products and who does not intend to resell the Products to any third party.

(c) If any customer or prospective customer of Retail Distributor is not yet an Authorized Retail Reseller, Retail Distributor shall immediately provide the FoodScience Corporation Authorized Retail Reseller Policy (“Authorized Retail Reseller Policy”) to such customer/prospective customer. If such customer/prospective customer accepts the terms in the Authorized Retail Reseller Policy, Retail Distributor may thereafter sell Products to such customer, which shall thereafter be an Authorized Retail Reseller unless and until FoodScience revokes such status. Authorized Retail Resellers are determined by FoodScience in its sole discretion.

(d) Retail Distributor shall distribute policies, updates to policies, product information, educational materials, and other information to its Authorized Retail Reseller customers as requested by FoodScience from time to time.

(e) Retail Distributor shall cease or suspend sales to any customer promptly upon request of FoodScience.

(f) Retail Distributor shall not sell, ship, invoice, or promote the Products outside the United States of America or to anyone Distributor knows or has reason to know intends to ship the Products outside of the United States of America without FoodScience’s prior written consent.

(g) Notwithstanding Section 1(a), Retail Distributor shall not sell Products to any entity that operates a third party marketplace website, including, but not limited to Amazon.com, Groupon.com, or Jet.com.

2. Online Sales. Retail Distributor shall not market or offer for sale the Products on or through any Publicly Accessible Website without the prior written consent of FoodScience. A “Publicly Accessible Website” is a website, online marketplace, mobile application, or other online forum that advertises Products or

offers Products for sale and displays Product pricing information in a location that can be viewed by a prospective customer without creating an account and logging in. **All third party marketplace websites, including, but not limited to, Amazon, eBay, Jet, Walmart Marketplace, or Sears Marketplace, are Publicly Accessible Websites. Sales on these websites are prohibited without FoodScience's prior written consent.** A website operated by Retail Distributor to facilitate orders from Authorized Retail Resellers that requires the Authorized Retail Reseller to obtain an account and log in to view Product listings and pricing information is not considered a Publicly Accessible Website.

The terms of this Retail Distributor Policy supersede any prior agreement between FoodScience and Retail Distributor regarding the sale of the Products on Publicly Accessible Websites. Any authorization previously granted to Retail Distributor by FoodScience to sell the Products on a Publicly Accessible Website is hereby revoked.

3. **Sales Practices.** Retail Distributor shall conduct its business in a reasonable and ethical manner at all times and shall not engage in any deceptive, misleading, or unethical practices or advertising at any time. Retail Distributor shall not make any warranties or representations concerning the Products except as expressly authorized by FoodScience. Retail Distributor shall comply with any and all applicable laws, rules, regulations, and policies related to the advertising, sale, and marketing of the Products. Retail Distributor shall represent the Products in a professional manner and refrain from any conduct that is or could be detrimental to the reputation of FoodScience.

4. **Product Care, Customer Service, and Other Quality Controls.**

(a) Retail Distributor shall comply with all instructions provided by FoodScience regarding the storage, handling, shipping, disposal, or other aspect of the Products, including instructions provided on Product labels. Retail Distributor shall store Products in a cool, dry place, away from direct sunlight.

(b) Retail Distributor shall sell Products in their original packaging. Relabeling, repackaging (including the separation of bundled Products or the bundling of Products), and other alterations to Products or their packaging are not permitted. Retail Distributor shall not remove, translate, or modify the contents of any label or literature on or accompanying the Products. Retail Distributor shall not tamper with, deface, or otherwise alter any serial number, UPC code, or other identifying information on Products or their packaging. Retail Distributor shall not alter Products.

(c) Retail Distributor shall not sell any Product that has been returned opened or repackaged.

(d) Promptly upon receipt of the Products, Retail Distributor shall inspect the Products and their packaging for damage, defect, broken seals, evidence of tampering, or other nonconformance (a "Defect"). If any Defect is identified, Retail Distributor must not offer the Product for sale and must promptly report the Defect to FoodScience at sstamand@foodsciencecorp.com.

(e) Retail Distributor shall inspect its inventory regularly for expired or soon-to-be expired Products and shall remove those Products from its inventory. Retail Distributor shall not sell any Products that are expired or within 60 days of expiration. Retail Distributor shall destroy or dispose of expired or soon-to-be expired Products in accordance with instructions provided by FoodScience.

(f) Retail Distributor shall be familiar with the special features of all Products marketed for sale and must obtain sufficient Product knowledge to advise customers on the selection and safe use of the Products, as well as any applicable warranty, guarantee, or return policy. Retail Distributor must be available to respond to customer questions and concerns both before and after sale of the Products and should endeavor to respond to customer inquiries promptly.

(g) Retail Distributor shall cooperate with FoodScience with respect to any Product tracking systems that may be implemented from time to time.

(h) Retail Distributor shall cooperate with FoodScience with respect to any Product recall or other consumer safety information dissemination efforts.

(i) Retail Distributor shall report to FoodScience any customer complaint or adverse claim regarding the Products of which it becomes aware. Retail Distributor shall assist FoodScience in investigating any such complaints or adverse claims.

(j) Retail Distributor shall cooperate with FoodScience in the investigation and resolution of any quality or customer service issues related to Retail Distributor's sale of the Products, including disclosing information regarding Product sources, shipment, and handling.

5. **Intellectual Property.** Retail Distributor acknowledges and agrees that FoodScience owns all proprietary rights in and to the FoodScience, VetriScience Laboratories, and PetNaturals of Vermont brands, names, logos, trademarks, service marks, trade dress, copyrights, patents, and other intellectual property related to the Products (the "**FoodScience IP**"). Retail Distributor is granted a limited, non-exclusive, non-transferable, revocable license to use the FoodScience IP solely for purposes of marketing and selling the Products as set forth herein. This license will cease upon termination of Retail Distributor's status as an Authorized Retail Distributor. All goodwill arising from Retail Distributor's use of the FoodScience IP shall inure solely to the benefit of FoodScience. Retail Distributor's use of the FoodScience IP shall be in accordance with any guidelines that may be provided by FoodScience from time to time ("**Brand Guidelines**") and must be commercially reasonable as to the size, placement, and other manners of use. FoodScience reserves the right to review and approve, in its sole discretion, Retail Distributor's use or intended use of the FoodScience IP at any time, without limitation. Retail Distributor shall not create, register, or use any domain name or any mobile application that contains any FoodScience product name or any trademark owned by FoodScience, nor a misspelling or confusingly similar variation of any FoodScience product name or any trademark owned by or licensed to FoodScience.

6. **Termination.** If Retail Distributor violates this Retail Distributor Policy, FoodScience reserves the right to terminate Retail Distributor's status as an Authorized Retail Distributor with written or electronic notice. Upon termination of a Retail Distributor's status as an Authorized Retail Distributor, Retail Distributor shall immediately cease (i) selling the Products; (ii) acting in any manner that may reasonably give the impression that Retail Distributor is an Authorized Retail Distributor of FoodScience Products or has any affiliation whatsoever with FoodScience; and (iii) using all FoodScience IP.

7. **Modification.** FoodScience reserves the right to update, amend, or modify this Retail Distributor Policy at any time. Unless otherwise provided, such amendments will take effect immediately and Retail Distributor's continued use, advertising, offering for sale, or sale of the Products, use of the FoodScience IP, or use of any other information or materials provided by FoodScience to Retail Distributor will be deemed Retail Distributor's acceptance of the amendments.

8. **Confidentiality.** This Retail Distributor Policy, and its attachments, if any, constitute confidential, proprietary information of FoodScience and shall not be used for any purpose other than the authorized advertising and sale of the Products nor disclosed to any third party without the prior written consent of FoodScience.

**FOODSCIENCE CORPORATION
UNITED STATES MINIMUM ADVERTISED PRICE POLICY
(Effective Date: November 1, 2019)**

FoodScience Corporation (“FoodScience”) has determined that certain advertising practices undermine FoodScience’s reputation, VetriScience and PetNaturals brands, and premium image within the target consumer population and discourage FoodScience’s sellers from investing in the FoodScience product lines and providing the best possible service and support to consumers. Accordingly, to protect the integrity of the FoodScience VetriScience and PetNaturals brands, FoodScience has adopted this unilateral Minimum Advertised Price Policy (the “Policy”), which applies to all authorized sellers of FoodScience products in the United States of America of the Covered Products (as defined below).

Products Subject to MAP Policy

The Policy applies to advertisements of the FoodScience products listed on the FoodScience MAP Schedule (“Covered Product(s)”). The FoodScience MAP Schedule will be made available to all sellers and may be amended by FoodScience in its sole discretion at any time.

The Minimum Advertised Price

FoodScience is solely responsible for (1) establishing the minimum advertised price (“MAP”) for each Covered Product and (2) communicating the MAP to all sellers. While sellers remain free to advertise and sell all FoodScience products (including the Covered Products) at any price, it is a violation of this Policy for a seller to advertise any Covered Product at a price lower than the MAP.

Advertising and Advertisements

The terms “advertise” and “advertisement” include all promotional or pricing information displayed via any type of media, including, but not limited to:

- newspapers
- catalogs
- magazines
- flyers
- brochures
- television
- radio ads
- billboards
- signage (except signs displayed within a brick-and-mortar selling location)
- websites
- blogs
- social media
- affiliate marketing networks/comparison shopping engines
- seller-initiated text messages or emails to customers or prospective customers,
- mobile/smart phone applications
- banner ads
- online product ads
- paid search ads
- pay-per-click ads
- display ads
- mobile ads
- product listing ads
- sponsored links
- ads in any other media in a digital format that is communicated or conveyed via the internet
- any other marketing or promotional materials, whether displayed online or through broadcast or other media.

The terms “advertise” and “advertisement” do not include:

- signage displayed within a brick-and-mortar selling location;
- a free or reduced-price shipping advertisement (as long as such offer applies to all or almost all other products offered by the seller in the same product category); and
- pricing information displayed at the “final online checkout stage” (which is when the Covered Product is put into a shopping cart that contains the customer’s name, shipping address, email address, and payment information) of a transaction.

What Constitutes a Policy Violation

Advertisements that violate this Policy include but are not limited to:

- Offering coupons, discounts, seller rebates, or other inducements that, when applied, result in a price lower than the MAP, including through use of a storewide sale, promotional code, or other similar provision that can be applied to Covered Products.
- Bundling Covered Products with other products or services (whether made by or provided by FoodScience or another entity) in a manner that implies below-MAP pricing for the bundled Covered Product.
- Strikeouts or strikethroughs of pricing information, “see price in cart,” or other statements that suggest that a lower price for a Covered Product may be found at the final online checkout stage.
- Permitting any third party to alter the advertised price for any Covered Product.

Direct or indirect attempts to circumvent this Policy also violate this Policy.

It is not a violation to advertise:

- That a customer may “call for price,” “text for price,” or “email for price” as long as no price is listed and no automated call, text message, or “bounce-back” email is used in response.
- Free or reduced-price shipping, as long as such offer applies to all or almost all other products offered by a seller in the same product category.

Please note that pricing information in the “shopping cart” or “checkout” stages must be obscured technically so that it is not retrievable by shopping and pricing engines and not displayed on search page results within the seller’s own website.

MAP Holidays and Promotions

FoodScience may announce MAP holidays or promotions that are applicable to all sellers, during which periods a seller that advertises a Covered Product in accordance with the terms of the authorized promotion will not be deemed to have violated the Policy. FoodScience will notify all sellers of any such authorized promotions, generally not fewer than 30 days in advance.

This Policy Is Not an Agreement and Is Non-Negotiable

This Policy does not constitute an agreement between FoodScience and any other entity. FoodScience does not solicit and will not accept any assurance of compliance with this Policy from any seller or other party. Each seller must independently choose whether to comply with the terms of this Policy. **This Policy is not negotiable and will not be altered for any individual seller.**

Non-Compliance

FoodScience will take the following actions against any seller that fails to comply with this Policy:

- i. **First Violation:** FoodScience will notify the seller in writing of such failure.
- ii. **Second Violation:** FoodScience will notify the seller in writing of such failure and will immediately place the seller's account on shipping hold for thirty (30) days for the Covered Products at issue. FoodScience will revoke its acceptance of any pending orders of Covered Product at issue, cancel any pending shipments of Covered Product at issue, and not accept any new orders of Covered Product at issue from the seller during this 30-day period.
- iii. **Third Violation:** FoodScience will notify the seller in writing of such failure and will immediately place the seller's account on shipping hold for one hundred and twenty (120) days for the Covered Products at issue. FoodScience will revoke its acceptance of any pending order of each Covered Product at issue, cancel any pending shipments of Covered Product at issue, and not accept any new order of Covered Product at issue from the seller during this 120-day period.
- iv. **Fourth Violation:** FoodScience will revoke its acceptance of any pending orders of the Covered Product at issue and cancel any pending shipments of the Covered Products at issue. FoodScience will revoke the seller's ability to purchase the Covered Product at issue.

Although FoodScience is not directing any seller to require that its customers comply with this Policy, a violation of this Policy by any such third party will constitute a violation by the seller. The Policy will be enforced by FoodScience in its sole discretion and without notice. Sellers have no right to enforce the Policy.

Policy Administration

FoodScience may update, revise, suspend, terminate, reinstitute, or modify this Policy at any time in its sole discretion. FoodScience shall make any such modifications available to all authorized sellers. If FoodScience changes the MAP on any Covered Product, it will provide at least 30 days' notice to sellers before such change takes effect. FoodScience reserves its right to discontinue selling any Covered Product in its sole discretion, at any time, with or without notice.

No FoodScience employee or agent, including a seller's sales representative, is authorized to modify, interpret, or grant exceptions to this Policy; solicit or obtain the agreement of any person to this Policy; or otherwise discuss any aspect of this Policy with any seller, including that seller's or any other seller's compliance with the terms of the Policy. Any questions about this Policy should be submitted in writing and directed to FoodScience's MAP Policy Administrator at FSCPpolicyComm@FoodScienceCorp.com. FoodScience will accept no other form of communication from sellers regarding the Policy.

This Policy is effective November 1, 2019 and supersedes all prior FoodScience policies and/or representations regarding minimum advertised prices or resale prices for FoodScience products applicable to any seller. To the extent that any provision, term, or agreement governing the relationship between FoodScience and any seller may be construed in a manner that is inconsistent with the terms of this Policy, the terms of this Policy control.
